I. INTRODUCTION

The 3rd Plenary Meeting was held in Yogyakarta and hosted by Gadjah Mada University. Prof. Dr. Sukanto Reksohadiprodjo, Rector of Gadjah Mada University, has been the Chairman of ASEA UNINET from 1997 to 1998, during which period ASEA UNINET grew from 25 to 32 member universities, i.e. 8 Austrian, 4 other European, 4 Indonesian, 1 Philippine, 10 Thai, and 5 Vietnamese universities. This 3rd Plenary Meeting was attended by 61 participants, including Dr. Sigurd Höllinger, Vice-Minister for Science and Transport, Republic of Austria, Dr. Viktor Segalla, Ambassador, Republic of Austria and Prof. Dr. Ir. Bambang Suhendro, Director General of Higher Education, Ministry of Education and Culture, Republic of Indonesia. Other participants are prominent figures in academic institutions in member countries.

The meeting was attended by several observers among them representatives of Ministries. The opening speech of Vice-Minister Dr. Sigurd Höllinger is attached to this report.

II. REPORT FROM NATIONAL COORDINATORS

All National Coordinators (Austria, Thailand, Vietnam and Indonesia) reported on the development of organizations, programmes (projects) and some budget problems due to the current monetary crisis in South-East Asia, and budget restrictions in Austria.

The network has expanded in response to applications of new members from both European and Asian countries.

All the National Coordinators presented progress reports on projects and programmes carried out with regard to Student Exchange Programmes, Staff Exchange Programmes and Research Cooperation Programmes.

Prof.Dr.B.M.Rode, the National Coordinator for Austria, also presented the newly installed internet homepage of ASEA UNINET as well as the Notice Board with some explanatory remarks.

III. REPORT FROM ASSOCIATE MEMBERS

Five Associate Members of ASEA UNINET presented the profiles of their universities, namely:

1. Technical University of Prague, Czech Republic
2. Southern Denmark School of Business and Engineering, Denmark
3. University of Barcelona, Spain
4. University of Indonesia, Indonesia
5. University of Middlesex, United Kingdom

One Associate Member, the University of the Philippines was absent at this 3rd Plenary Meeting.

The five Associate Members presented the structure of their Degree and Non-Degree Programmes. All Associate Members, except the University of Barcelona, already have programmes which are conducted in English.

IV. EUROPE - SOUTH-EAST ASIA COOPERATION

In accordance with the results of the 1st Plenary Meeting and a request from the Austrian side, the meeting is seeking possibilities to extend the network within Europe - South-East Asia. It is on this line that the meeting felt it was important to invite the European Commission

Representative to give a presentation on the EC cooperation framework, who made the following comments:

The EC current policy in Asia is to strengthen higher education and training links with Asia, including university cooperation schemes targeted into technological policies and management studies and emphasizing the implementation of joint or mutually recognised postgraduate programmes, joint research and other education schemes.

DGIB which covers South and South-East Asia has planned funding of academic cooperation between the European Union and ASEAN, but no budget has been made available to date. Other possible funding could be found through DGXII which covers academic cooperation with third countries. The DGIB scheme will involve projects between at least 2 partners in South-East Asian countries and at least 2 partners in the EU member countries. The proposal provides for 20 cooperation projects per year in 4 years' time. Networking will be a main objective of the EU-ASEAN programme and a network structure between AUN and EU universities should be built up (which certainly seems to be a "duplication" of the early ASEA-UNINET formation process!)

There will first be a tender for management of the cooperation projects and a subsequent tender for project proposals. When the scheme involves a university of a non-member country, this university has an obligation to provide a contribution which can be "in kind".

V. ASEA UNINET POLICIES

Discussions were held and several decisions made during the Plenary Meeting regarding ASEA UNINET Policy:

1. The network will take a "soft line" in accepting Associate Members as Full Members of ASEA UNINET. It is the feeling of the participants that the network should be extended to incorporate other European countries in the existing network. The acceptance into Full Membership of any Associate Member will be based upon the following criteria:
 - Continuously running programme(s)
 - Activity not restricted to a single project
2. An intra-sessional meeting for National Coordinators (in 9 months) will be held to decide on the acceptance of Associate Members as Full Members.
3. Membership fees remain unchanged:
 - European universities USD 500
 - South-East Asian universities USD 300 with the exception of
 - Indo-Chinese universities USD 100
4. Due to the current monetary crisis, the enrolment fee for new South-East Asian University Associate Members is USD 250 which will be reconsidered at the 4th Plenary Meeting. The enrolment fee for European universities remains at USD 1000.
5. It was agreed at the meeting that the number of members is to be limited to 50 participating universities for the present term of office.
6. The Austrian National Coordinator was elected as the European Coordinator.

7. The Thai National Coordinator was elected as the Asian Coordinator.
8. The funding proposal for UNESCO will not be discussed further.
9. The participants agreed that due to the complexity of proposal development and evaluation, a working group might be established on the issue of EU funding. Prof.BM.Rode would act as the coordinator of this working group.
10. Regarding EC funding, there are two possibilities that should be explored further:
 - Using ASEA UNINET as an umbrella institution whenever applying for EC projects (for DGIB and DGXII project)
 - Seeking possibilities of forming a task force - together with another European partner- to bid for management projects.

The network has established a homepage.

The most important feature of the homepage is the **notice board** as a media for exchanging general information about ongoing research, staff exchange so that other member universities can benefit from the information and easily join in ongoing activities

VI. REPORT FROM WORKING GROUPS

All participants split into five groups, namely :

1. Agriculture and Biotechnology
2. Basic Science and Engineering
3. Economics/Business, Social Sciences and Tourism
4. Medicine
5. Philosophy and Art

The university delegates have intensively discussed the focus area of cooperation in each group in order to decide on the areas of cooperation that will be continued and the areas that will be set up. The results of these discussions are the following:

Group I

AGRICULTURE AND BIOTECHNOLOGY

1. Biotechnology and Genetics
 - Gadjah Mada (plant breeding)
 - Kasetsart University (food services)
 - Suranaree University (molecular genetics of native livestock)
 - Diponegoro University (animal food)
 - Prince of Songkhla (food services)
 - Khon Kaen University (antibiotics)
 - University of Veterinary Medicine –Vienna

- University of Agricultural Sciences –Vienna
- University of Vienna-Biozentrum
- 2. Food Services and Animal Food
 - Gadjah Mada; Kasetsart; Diponegoro (animal food); Khon Kaen (animal food); Prince of Songkhla; University of Veterinary Medicine -Vienna; University of Agricultural Sciences -Vienna
- 3. Sustainable Agriculture
 - Gadjah Mada; Suranaree; University of Agricultural Sciences -Vienna;
 - University of Vienna-Biozentrum
- 4. Training Courses
 - a. Mycotoxins
 - Gadjah Mada; Diponegoro; Kasetsart; Khon Kaen; University of Veterinary Medicine -Vienna
 - b. Advance Techniques to Measure Bioproductivity in Changing Environment.
 - Gadjah Mada; Diponegoro; University of Indonesia; University of Vienna - Biozentrum
- 5. Development of Sandwich Programme and Joint Degree

Group II

BASIC SCIENCES AND ENGINEERING

Following areas of cooperation have been evaluated and agreed upon:

Area of Cooperation	Exist	Continued	Universities Involved	New
Computational Chemistry and Physics	*	*	Innsbruck U., Chulalongkorn U., UGM., Vienna U., Univ. of HCMC, Univ.Pharmacy HCMC	
Combustion Engineering	*	*	T.U.Graz, M. U. Leoben, Chulalongkorn U., ITS, T. U. Prague	;
Material Sciences/ Engineering	*	*	U.I., ITB, UGM, M.U. Leoben	
Environmental Engineering	*		Univ. of Middlesex, T. U. Vienna, T. U. Graz	
Geography Information System / GIS, Geodetics Engineering	-	-	T.U. Graz, M. U. Leoben, Chulalongkorn U., T. U. Vienna, UI, UGM	*

Group III

ECONOMICS, BUSINESS, SOCIAL SCIENCES AND TOURISM

During the meeting, several focus areas were identified, namely:

1. Economics and business
 - a. Health Economics
 - b. Monetary Economics
 - c. General Management
2. Tourism
 - a. Management
 - b. Tourism Demand
 - c. Marketing Strategy
 - d. Tourism Impact Studies (Impact on Environment, Culture, etc.)
3. Social Sciences / Humanities
 - a. Impact of Globalization
 - b. Psychology (Cross-Cultural Aspect)

Types of Activities

It is proposed that the activities are focused on the following:

1. Applied Research - Mono/multi-disciplinary approach
2. Teaching/Education by means of:
 - Student Exchange
 - Staff Exchange
 - Joint Degree Programmes
 - Curriculum development

With the priority on the research experience for junior research staff development

At the meeting, it was decided that **tourism** is the focus of cooperation in the area of social sciences/humanities/economics due to its nature as a multi-disciplinary area. In particular, two concrete projects were identified, namely:

Biomedical	*	*	*	*	*	*	*	
Health Care (Clinical)	*	*	*	*	*	*	*	*
Medicinal Plants	*	*	*	*	-	*	*
